ASE 50th Anniversary
Pre-Congress Meeting to the
37th Australian Dental Conference

50 YEARS OF THE ASE: THE ART AND SCIENCE OF ENDODONTICS

For more information or to register online please visit
www.ase.org.au

Welcome...

to the 50th Australian Society of Endodontology (ASE) pre ADA congress meeting. Over the last 50 years we have witnessed numerous advances in endodontics. Biofilms, nano particles, photodynamics, and Conebeam CT are just some of the words that have become integrated into the endodontic vernacular.

Come and join us for a full day meeting updating these modern and novel technologies useful in the understanding of endodontic pathosis and the implementation of sophisticated imaging techniques used to aid diagnosis and management to achieving a more conservative approach to access and management of endodontic disease.

Come, back to the future!!!!

VENUE:

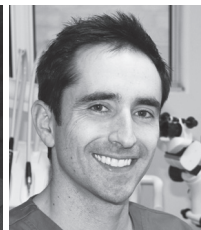

The Melbourne Convention and Exhibition Centre on Wednesday 17th May, 2017.

ASE 50th Anniversary Dinner to be held on Tuesday 16th May from 7pm, Venue TBC.

SPEAKERS:
